

PARTNERS

VEOLIA  **VEOLIA**

Veolia group is the global leader in optimized resource management. With over 174 000 employees worldwide, the Group designs and provides water, waste and energy management solutions that contribute to the sustainable development of communities and industries. Through its three complementary business activities, Veolia helps to develop access resources, preserve available resources, and to replenish them.

In 2015, the Veolia group supplied 100 million people with drinking water and 63 million people with wastewater service, produced 63 million megawatt hours of energy and converted 42.9 million metric tons of waste into new materials and energy. Veolia Environment recorded consolidated revenue of €25 billion in 2015. www.veolia.com

VODAVODA 

VODAVODA comes from one of the most beautiful environments – from a thousands of years old well Banja Vrujci in the northwestern part of Serbia, at the foot of Mount Suvobor, Divčibare and Rajac and nested in the picturesque valley of the river Toplice. It is made and designed by nature and it is the beginner of life on Earth. Naturally filtered through layers of limestone, and wells from a depth of 605 meters, it is completely clear and biologically clean. Thanks to a well-balanced composition, the perfect combination of minerals and salts, it is ideal for everyday use. Bottling directly from the well, without processing, keeps its authentic purity.

Bottling is being done by using modern technology, which ensures perfect working conditions without environmental pollution. The most advanced production does not disturb the environment because there is no additional processing or processing to maintain the beauty that nature provides for us and to protect it. VODAVODA combines the best in the class of technology, quality and leading experts who care every day to get VODAVODA in its authentic form to each of you.
